# FROM THE PRINCIPAL

Based on progress so far in their Stage 5 courses, Year 9 students will begin to gain a better idea of the types of courses they may choose for the Stage 6. The additional elective course for Year 10 should therefore be chosen with as much care as their existing electives. Again, it is important that students take on the feedback from their teachers, parents, take up the opportunity to hear and learn about the different career opportunities that are available and of course, consider what they want.

The following will be a consistent message that students will hear when preparing to select their additional elective course for Year 10:

- *Choose courses based on what you like*
- *Choose courses based on what you are good at*
- *Choose courses that can be relevant to your pathway beyond school*
