TVET guide: the courses

The pathway to a career

Finishing school, but already know what you want to do as a career? Or maybe you've got an idea of what life after school could look like, but want to try it out first?

Either way, you'll get a head start while still at school with a TAFE-delivered Vocational Education and Training (TVET) course. From Animal Care to Community Services to Music Industry courses, we've got just about all interests and industries covered.

Why TVET?

TVET offers direct pathways to further education and employment options. These pathways may include:

full time and part time TAFE NSW courses that give you job ready skills in a huge range of careers

diploma and advanced diploma courses that may provide credit towards TAFE NSW degrees and university course

pre-apprenticeship courses that give you skills to help enter the workforce

apprenticeships and traineeships that combine formal studies with work and on-the-job training

recognition of prior learning gained through TVET, other HSC studies and employment.

What is TVET?

TVET is TAFE-delivered Vocational Education and Training

With TVET, you can get a head start on your career by completing a TAFE NSW course, while still at school.

TVET courses are available to students in Year 11 and 12 (Stage 6), as well as students in Year 9 and 10 (Stage 5). The majority of courses detailed throughout this guide are Stage 6 courses.

Stage 6 TVET courses count towards your HSC, with some contributing towards your Australian Tertiary Admission Rank (ATAR).

Benefits of TVET

At TAFE NSW, you will gain work related skills and experience that is recognised and valued by employers. In many TVET courses, in addition to your theoretical training, you will also be required to complete a mandatory work placement.

TVET studies can be used to help you gain a place in a TAFE NSW Higher Education course or at a university, by contributing to your ATAR. Your TVET course may provide you with an industry qualification. TVET courses may also contribute towards credit or advance standing in your next TAFE NSW course.

By successfully completing your TVET course, you will gain two credentials upon finishing school; one from the New South Wales Educational Standards Authority (NESA) and another from TAFE NSW.

Specialisation courses

Specialisation courses are delivered concurrently with 240-hour TVET courses. They can contribute additional units of HSC credit (depending on the HSC syllabus for the course) and can allow you to complete more of a qualification (potentially obtaining a full qualification) or in some cases, you could progress to a higher level qualification.

School-based apprenticeships and traineeships

School-Based Apprenticeships and Traineeships (SBAT) combine paid work, school and TAFE NSW training, to help you gain valuable work skills and experience while you are studying for the HSC.

After successfully completing a school-based apprenticeship or traineeship, you will receive a TAFE NSW transcript of academic record which may count towards further study.

School-based apprentices and trainees have access to a large range of courses across many different industry areas. SBATs have access to a number of courses identified within this guide, along with additional pathway options that are not available to TVET students. Ask your careers adviser about your options.

For more information on school-based apprenticeships and traineeships, please visit: education.nsw.gov.au/sbat

This training is subsidised by the NSW Government.

TVET delivery options

Face-to-face campus delivery

Participation at TAFE NSW locations, generally on a weekly basis.

Online

Flexible delivery with no classroom attendance. You will access the learning website to locate your learning resources and receive ongoing support from your TVET teacher.

Virtual delivery

Teacher-led virtual classrooms at scheduled times via web-conferencing technology. Campus attendance may also be required for some units.

Blended delivery

A mix of online, virtual and face-to-face delivery.

Block release delivery

Self-paced study during school term, with class sessions held at a TAFE NSW location (which may include school holidays).

“TAFE NSW was a friendly environment which assisted in advancing my knowledge and skills for the hospitality industry.”

Rachel,
Certificate II in Kitchen
Operations (SIT20416),
VET in Schools Student
of the Year 2023 (West)

Rachel chose to study at TAFE NSW to complete her Certificate II in Kitchen Operations (SIT20416) whilst at school in 2022 because she knew it would bring her a comprehensive understanding of the industry. This course has assisted her in advancing her knowledge, skills and providing confidence and competence in a kitchen environment and Rachel's teachers have been excellent mentors to her in the delivery of their content. In 2023, Rachel was awarded VET in Schools Student of the Year (West Region) at the TAFE NSW Excellence Awards.

Speak with your school VET coordinator or Careers Adviser about the available course options that align with your future career goals.

How to use this guide

ATAR

This course can contribute to your Australian Tertiary Admissions Rank (ATAR) where you complete a minimum 240-hour course and sit the HSC examination.

WP

This course includes mandatory work placement hours.

SBAT

This course may be offered as a School-based Apprenticeship or Traineeship. The qualification available for school-based apprentices and trainees may vary from the qualifications listed available for TVET students.

SS

This course area has additional specialisation study available. You must be currently studying the 240-hour course at school or TAFE NSW.

BEC

This is a board endorsed course that contributes to your Record of School Achievement (RoSA) or HSC, but will not count towards your ATAR.

ICF

This is an Industry Curriculum Framework course that contributes to your HSC, and can also contribute towards your ATAR.

VV

Virtual VET courses offer up-to-date training in more than 20 career areas in growth industries. They are teacher-led virtual classrooms, and may include workshops and/or work placements. TAFE NSW is progressively adding more Virtual VET options. Please refer to EVET System to see if there are more options available.

TD

These courses are offered through online delivery by TAFE Digital and are supported with online study materials accessible 24 hours a day, seven days a week.

S5

Stage 5 refers to students in Years 9 and 10.

Aboriginal and/or Torres Strait Islander Cultural Arts

BEC

Begin to use art to proudly reflect your cultural identity. You'll learn your practice through collaborative community art projects, create a portfolio of your work and build a strong foundation to continue your art journey.

Is it right for you?	Possible industry skills	Potential career pathways
<ul style="list-style-type: none"> • Do you have a lived understanding of Aboriginal and/or Torres Strait Islander peoples? • Do you understand that local cultural knowledge necessary to achieve competency in some of the units may only be accessible to Aboriginal and/or Torres Strait Islander people? • Do you have an interest in cultural arts and history? • Do you have the ability to work closely with Aboriginal and/or Torres Strait Islander communities? 	<ul style="list-style-type: none"> • An understanding of your Aboriginal and/or Torres Strait Islander Cultural Identity • Research skills cultural arts practices • Artistic skills • Work safely in a creative cultural arts studio. 	<ul style="list-style-type: none"> • Work collaboratively on community art projects • Liaise with industry professionals and create a community of artists • Use industry-specific programs and artistic equipment • A strong pathway to continue your study and enhance your career opportunities.

Example of possible course pathways

For more information on locations and courses offered, please speak to your careers adviser.

The units of competence that will be delivered as part of this course option will be listed in the EVET system for your chosen location or delivery pattern. You should consider the full EVET details, including units, location and other requirements with your school before accepting the EVET Offer provided to you by your school as part of the EVET course acceptance process. Partial completion comprises a range of Units of Competence from the qualification identified; these may contribute to completion of the full qualification or to other nationally recognised training.

Aboriginal Languages

BEC

S5

Strengthen your voice and identity. Immerse yourself in Aboriginal Culture and improve your skills to communicate in language. Frequently asked questions

Does my TVET course contribute units towards my HSC?

Yes, all Stage 6 TVET courses count towards your HSC units. Stage 5 TVET courses contribute to your Record of School Achievement (RoSA).

Can my TVET course be used in the calculation of my ATAR?

Only some Stage 6 TVET courses count towards an ATAR. These courses are specified by NESAS, and require students to complete a full 240 hours of delivery, as well as sit the HSC exam for the subject. You should check with your school careers adviser to ensure that you have a suitable pattern of study to be eligible for an ATAR.

How long will the course run for?

The course will run between one and two years, depending on the pattern of study undertaken.

What delivery options are available for TVET courses?

TAFE NSW has a variety of delivery options to suit: face-to-face learning at TAFE NSW locations or at school, online, via a Connected Learning Centre (CLC), teacher-led virtual classrooms, workshops or as block delivery (which may involve attendance during the school holidays).

How are TVET courses delivered?

TVET courses have the same NSW Education Standards Authority (NESAS) requirements as other HSC courses. This means you will regularly attend classes and complete the set assessments. Most courses take between one and two years to complete and some classes may also extend outside of school hours and/or include work placement.

When do I attend class?

Depending on the delivery mode and the arrangement between your school and TAFE NSW, classes may require attendance at TAFE NSW on a weekly basis, block periods or have an online or connected classroom timetable. Class sessions may extend beyond school hours, including school holiday periods.

What are the requirements of a TVET course?

TVET courses carry the same requirements as normal school courses. Attendance is mandatory, unless prior consent is given. TAFE NSW requirements vary for each individual TVET course and will be clearly explained by the teacher at the start of your course.

How do I apply?

Speak with your school careers adviser or TVET coordinator to select a course that best meets your educational and vocational needs. Your school will then assist you with the application process.

What support services are offered?

We believe flexibility and support are critical to ensuring the success of our students. That's why we have a number of support teams and services available to you:

- Aboriginal student support
- Childcare facilities on-site at selected locations
- Car parking on-site at selected locations for your safety and convenience
- Academic support teams
- Career counselling.

Can I get assistance if I have a disability?

Careful consideration will be given to the courses selected by students with a disability. The chosen course must be assessed as the most appropriate course for the student, and one that will provide successful vocational outcomes. TAFE NSW will organise for you to be interviewed by a disability consultant, and your school will need to complete an additional form to ensure any necessary support requirements are considered at time of your placement.

For more information about support services available at TAFE NSW, visit [tafensw.edu.au/student-services](https://www.tafensw.edu.au/student-services)

What is work placement?

Work placement is a mandatory requirement for many TVET courses. It gives you the chance to apply the skills you've learned in a real industry setting, as well as pick up new ones "on the job."

Work placement will help you to:

- Gain insights into the kind of career you'd like to have
- Make informed decisions about further training and study
- Graduate job-ready and more employable.

TAFE NSW will support the coordination of your work placement opportunities. You can suggest an employer and we can support you in working to secure a placement with them.

Open doors to a new life with a School-Based Apprenticeship and Traineeship

School-Based Apprenticeships and Traineeships (SBAT) combine paid work, school and TAFE NSW training, to help you gain valuable work skills and experience while you are studying for the HSC.

Get started now by discussing your options with your school careers adviser.
