

# At TJHS we use **RESPECTFUL & APPROPRIATE** language

All students are reminded that we speak respectfully to each other at all times... because everyone deserves to be treated with respect and to feel like they belong.

**Language & behaviour that is respectful is expected, admired and rewarded!**

**SO, consider what you are saying to others, and how you are saying it.**

## **SOCIAL MEDIA / MOBILE DEVICE USE GUIDELINES**

**As students begin to interact online it is important to consider the school & DEC guidelines about ONLINE behaviour.**

**TJHS promotes the responsible use of all social media programs through encouraging our students to:**

- ✓ **Be considerate and polite online at all times**
- ✓ **Be aware that what you write online is being received by another person and can be recorded**
- ✓ **Consider what you say before you say it – it'll be on the web for a long time!**
- ✓ **Respect the fact that you are not to take photos or make video recordings of any individual or group of students without the express written permission of each individual.**
- ✓ **Report any concerns you have about your online conversations with your parents/Year Adviser or Deputy Principal**
- ✓ **Ensure that YOUR behaviour is always respectful of others!**
- ✓ **Avoid getting carried away while typing - don't send a response when you are annoyed or angry**
- ✓ **Remember that the Police may need to be contacted if behaviour is not managed in a respectful manner.**

**Any behaviour contrary to these directions will be considered an infringement of the school's "Code of Behaviour" and dealt with formally via the school's welfare and discipline procedures.**
